

San Diego Community College District

CLASSIFICATION DESCRIPTION

Title: Computer Operator, Senior

Unit: Office Technical

Page: 1 of 2
Job Code: J1402
Original Date: 07/2009
Last Revision: 04/2018
Staff Type: Classified
FLSA status: Non-Exempt
Salary Range: 17

DEFINITION

Under the general supervision of the Computer Operations Supervisor or assigned supervisor or manager, support the District's mainframe computer, central servers, and related peripheral equipment, including equipment that runs the District's administrative applications, as well as other operational tools, software, printers, and computer devices. Responsible for developing the Computer Operators' work schedule and maintaining forms inventories, maintenance schedules, report distribution, and tape library management. Provide direct operational services and assistance for all user departments at the District Office, College campuses, and Continuing Education sites.

EXAMPLE OF DUTIES

1. Develop the Computer Operators' staffing calendar and task schedules to keep the Data Center covered 24/7.
2. Maintain forms inventory and data center maintenance activities.
3. Operate computer systems to schedule and run daily production jobs, backups, and report output distribution in accordance with application development priorities and systems operations schedules.
4. Analyze and resolve hardware and software problems based on a documented procedures list.
5. Monitor computer production activities and various peripherals according to operations manual.
6. Identify and analyze computer or processing problems and resolve or escalate according to operations procedures and documentation. Arrange for repairs/maintenance with current vendors as needed.
7. Maintain backup files and tape libraries according to daily production schedule and department standards and procedures. Prepare disaster recovery backups for off-site storage daily.
8. Monitor CPU, production schedule, and peripherals to produce proper output.
9. Monitor use of system resources and inventory, such as paper, toner cartridges, and other resources or supplies as needed. Change or adjust resources as necessary.
10. Handle and distribute computer output as defined by processing schedule and operations manual.
11. Perform preventive maintenance as assigned for continued operations of computer systems and peripherals.
12. Provide assistance to user departments regarding special requests and output problems with respect to reports and special production runs.
13. Create, update, or troubleshoot user profiles in PeopleSoft Security (Identity Management).
14. Perform any other system monitoring activities as assigned.
15. Perform related duties as assigned.

DESIRABLE QUALIFICATIONS**Knowledge:**

- Computer applications, including email and other office applications.
- Computer, server, and mainframe computer operations.
